HOW TO READ THIS

Screen, then definition

Every screen page is followed by definition pages listing each element on it – what it means, where the data comes from, and when it updates. Long screens are shown as several continuous parts; that is one screen, not several.

Provenance

Your documents and the design board specify five screens – FR-01 to FR-05. The other 56 are design work proposed here. Nothing in this deck should be read as an agreed requirement unless it carries an FR-01 – FR-05 code.

EC

Election Commission / NID – verified identity, read-only

USER

Created by citizens – donations, requests, messages

CALC

Computed by the platform from stored data

ADMIN

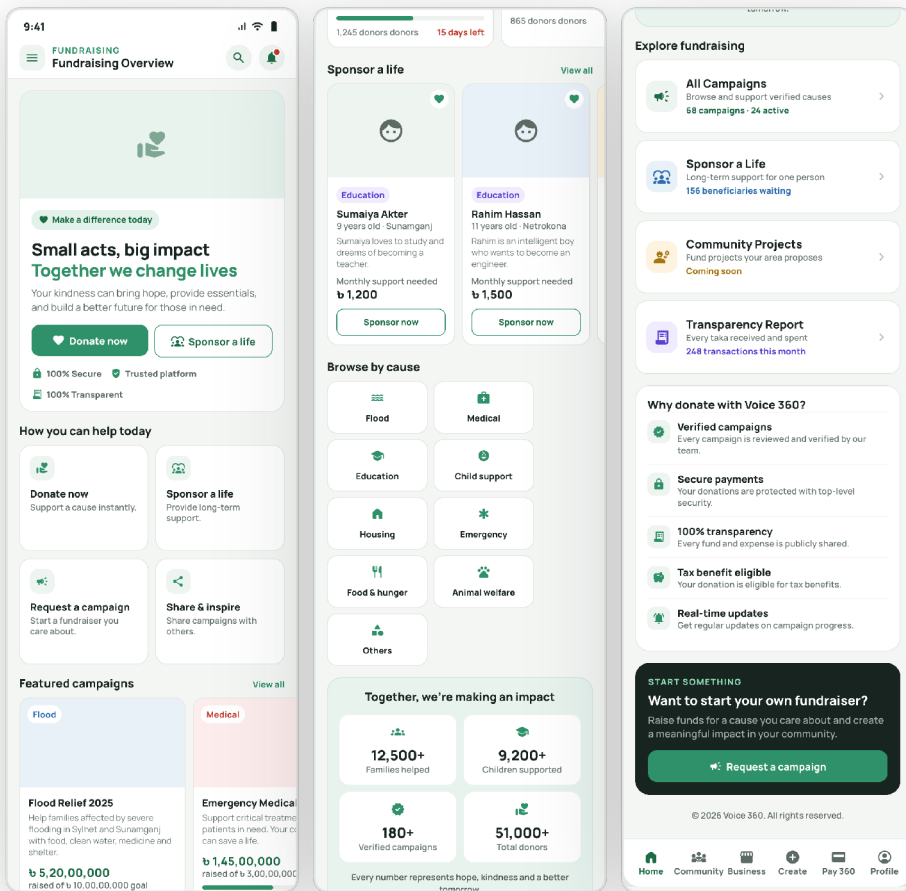

Curated or verified by the back office

EXT

Third party – payment providers, settlement

DEVICE

Stays on the phone – drafts, camera, network state

24 ELEMENTS DEFINED OVERLEAF

5 definition pages · what it means · where it comes from · when it updates

Fundraising Overview – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Header FUNDRAISING · Fundraising Overview	Module eyebrow plus screen title, so the citizen always knows which part of Voice 360 they are in.	– static	–
Search magnifier	Searches campaigns and beneficiaries together – one field, both indexes, because citizens do not think in our categories.	CALC campaign + beneficiary index	Live
Notifications bell with dot	Fundraising-scoped alerts: a campaign you backed posted an update, a sponsorship charge is due. Dot appears only when unread.	CALC notification records for this citizen	Live
Hero image photo	Editorial image set by the back office per season or appeal. Not campaign-specific.	ADMIN curated hero asset	On publish
Hero headline “Small acts, big impact / Together we change lives”	The module’s promise in the citizen’s language. Copy is admin-editable so it can follow a live appeal.	ADMIN curated copy	On publish
Donate now primary button	Opens FR-02 All Campaigns. The single most important tap on the screen and the only filled green button in the hero.	– routing only	–

Fundraising Overview – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Sponsor a life secondary button	Opens FR-03. Deliberately equal in prominence to Donate, because recurring support is the harder and more valuable commitment.	– routing only	–
Trust strip 100% Secure · Trusted platform · 100% Transparent	Three fixed claims shown before any money screen. They are promises the Transparency Report has to keep.	– static	–
Action tiles 4 coloured tiles	Donate now, Sponsor a life, Request a campaign, Share & inspire. The four things a citizen can do, stated as verbs.	– routing only	–
Request a campaign tile	Opens FR-08.1. Present on the entry screen so asking for help is as visible as giving it.	– routing only	–
Share & inspire tile	Opens the global share sheet with the module link. Sharing is a growth loop, not a donation.	– existing share module	On tap
Explore rows 4 destination rows	All Campaigns, Sponsor a Life, Community Projects, Transparency Report – each with a live metric so the row is informative before it is tapped.	CALC counts per destination	Live

Fundraising Overview — every element

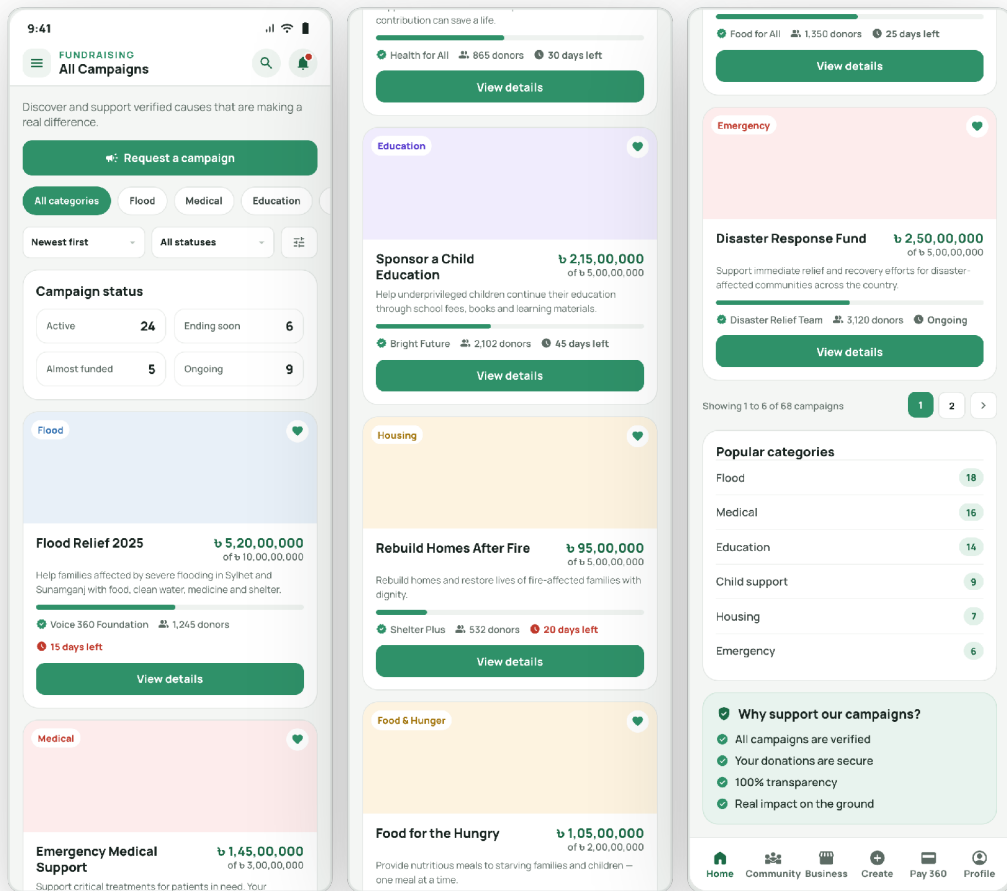

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
All Campaigns metric 68 campaigns · 24 active	Total published versus currently accepting donations. Both numbers matter — the gap is the module's history.	CALC campaign records	Live
Sponsor a Life metric 156 beneficiaries waiting	Verified beneficiaries with no active sponsor. Deliberately phrased as waiting, because they are.	ADMIN verified beneficiary records	Nightly
Community Projects metric Coming soon	FR-04 is not built. The row still appears so the roadmap is visible to citizens.	— static	—
Transparency metric 248 transactions this month	Ledger volume for the current month, linking to FR-05.	CALC ledger entries	Live
Featured campaigns horizontal cards	Editorially chosen, not algorithmic — the back office decides what leads, and that choice is auditable.	ADMIN featured flag on campaigns	On curation
Campaign card image · category · title · raised · goal · progress · donors · days left	The module's core object. Every number on it is live; the progress bar is raised + goal, capped at 100%.	CALC campaign record + donations	Live

Fundraising Overview — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Browse by cause 9 category tiles	Flood, Medical, Education, Child support, Housing, Emergency, Food & hunger, Animal welfare, Others. Fixed taxonomy — campaigns pick from it, they cannot invent a category.	ADMIN category taxonomy	On change
Sponsor a life preview beneficiary cards	Two verified beneficiaries with photo, age, location, story and monthly amount. Tapping opens FR-09.0.	ADMIN verified beneficiary records	Nightly
Why donate with Voice 360 6 reasons	Verified campaigns, secure payments, 100% transparency, tax benefit eligible, real-time updates. Objection handling before the first donation.	— static	—
Impact block 12,500+ families · 9,200+ children · 180+ campaigns · 51,000+ donors	Platform-wide totals, rounded and marked with a plus so they are never mistaken for a live ledger. The exact figures live in FR-05.	CALC aggregate over all campaigns	Nightly
Start something CTA dark card	Second, heavier prompt to request a campaign — placed at the end for citizens who scrolled the whole page and are still looking.	— routing only	—

Fundraising Overview – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Bottom nav Home · Community · Business · Create · Pay 360 · Profile	Global app navigation, unchanged inside Fundraising.	 existing shell	—

12 ELEMENTS DEFINED OVERLEAF

3 definition pages · what it means · where it comes from · when it updates

All Campaigns — every element

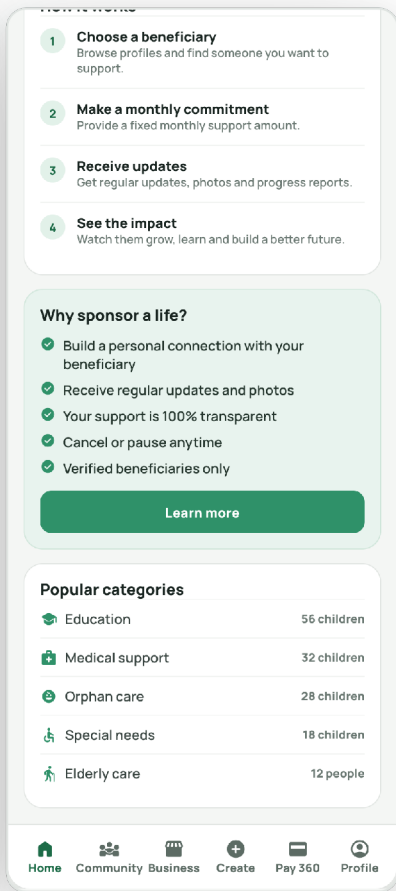

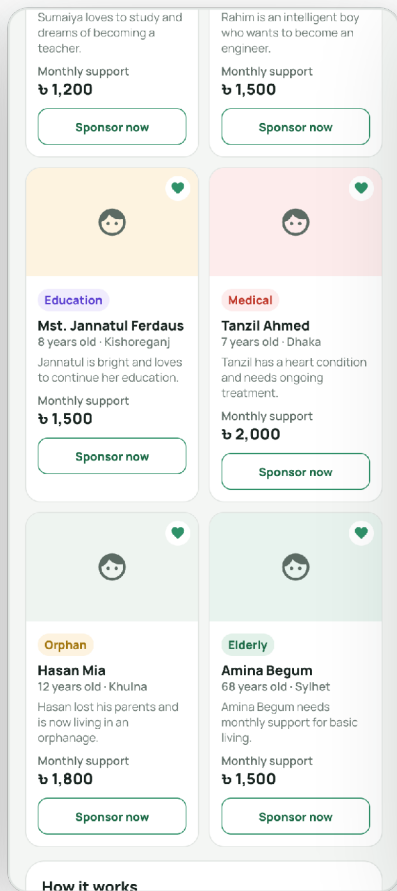

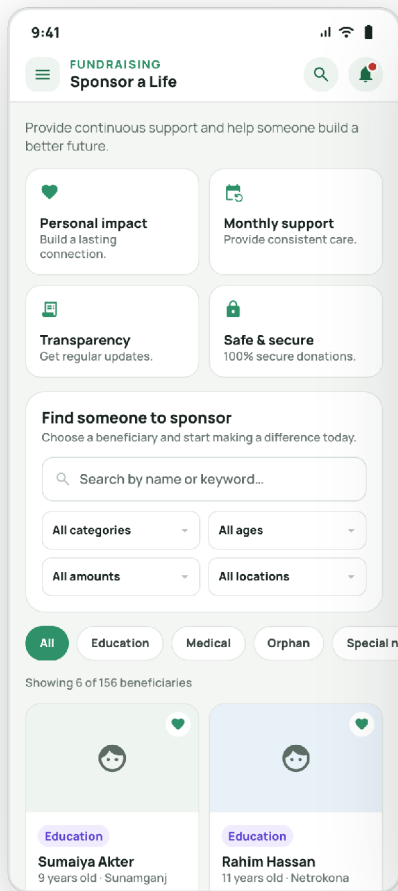

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Category chips All · Flood · Medical · Education ...	Single-select filter across the fixed taxonomy. Selection is reflected in the result count immediately.	ADMIN category taxonomy	On tap
Sort Newest first	Newest, ending soon, most funded, least funded. Default is newest so new appeals are seen.	USER citizen selection	On change
Status filter All statuses	Active, ending soon, almost funded, ongoing. Separate from sort because they answer different questions.	USER citizen selection	On change
Filter icon sliders	Opens FR-02.F, the full filter sheet with amount range, location and verification.	 routing only	—
Campaign status board Active 24 · Ending soon 6 · Almost funded 5 · Ongoing 9	Live counts by state. Tapping a count applies it as a filter rather than just informing.	CALC campaign records by state	Live

All Campaigns – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Campaign card image · category · title · raised of goal · progress · organiser · donors · days left	Same object as FR-01. Organiser name is shown because who is asking matters as much as what for.	CALC campaign record + donations	Live
Days left 15 days left	Counts down to the campaign deadline. Turns amber under 7 days. Ongoing campaigns show Ongoing instead.	CALC deadline minus today	Daily
Save heart	Adds to the citizen's saved list. Private – organisers never see who saved without donating.	USER saved-campaign record	On tap
View details button	Opens FR-06 Campaign Details.	– routing only	–
Popular categories list with counts	Categories ordered by live campaign count, so the list reflects real demand rather than our ordering.	CALC count per category	Hourly
Why support our campaigns 4 assurances	Repeated from FR-01 at the point of choosing, where doubt actually surfaces.	– static	–

All Campaigns – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Create (+) header button	Opens FR-08.1 Request a campaign.	– routing only	–

11 ELEMENTS DEFINED OVERLEAF

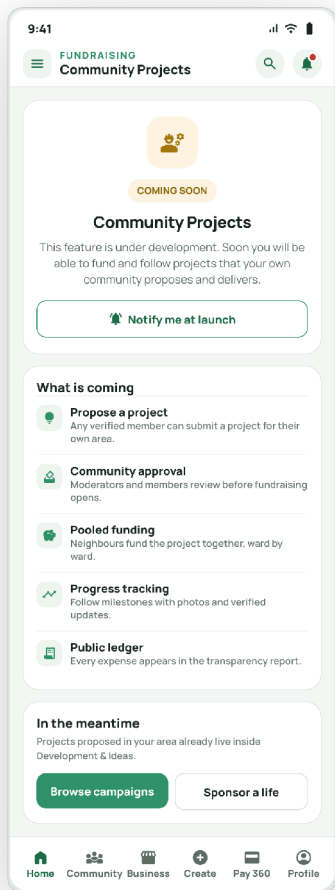

2 definition pages · what it means ·
where it comes from · when it updates

Sponsor a Life — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Find someone to sponsor search + 4 dropdowns	Categories, ages, amounts, locations. More filters than campaigns because sponsors choose a person, not a cause.	ADMIN beneficiary attributes	On change
Result count Showing 6 of 156 beneficiaries	Honest count — the citizen knows how many they have not seen.	CALC filtered beneficiary set	Live
Beneficiary card photo · category · name · age · location · story · monthly amount	A named person with a real photograph. The monthly figure is the assessed need, not a suggestion.	ADMIN verified beneficiary record	On verification
Category tag Education · Medical · Orphan · Elderly	Why this person needs support. Drives the filter and the sponsor's expectations.	ADMIN beneficiary record	On verification
Monthly support ₹ 1,200	Fixed per beneficiary and set during verification — sponsors cannot negotiate it down on this screen.	ADMIN needs assessment	On verification
Sponsor now button	Opens FR-09.0 Beneficiary Details, not the payment flow. Nobody commits before reading the story.	— routing only	—

Sponsor a Life — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Save heart	Private shortlist. Beneficiaries are never told they were saved and not chosen.	USER saved record	On tap
Four value tiles Personal impact · Monthly support · Transparency · Safe & secure	The four reassurances specific to recurring giving.	— static	—
How it works 4 numbered steps	Choose a beneficiary, make a monthly commitment, receive updates, see the impact. Sets the expectation that this is ongoing.	— static	—
Why sponsor a life 5 checks	Includes “cancel or pause anytime” — stated up front rather than buried, because the fear is being trapped.	— static	—
Popular categories Education 56 · Medical 32 · Orphan 28 · Special needs 18 · Elderly 12	Live counts of waiting beneficiaries per category.	CALC beneficiary records	Nightly

SCREEN 4 · COMING SOON

Community Projects

6 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Community Projects — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Coming soon badge amber pill	States that the feature is not live in this build. The designs exist — this is release sequencing, not missing design.	— static	—
Explanation “This feature is under development...”	What the feature will be, in one sentence, so the citizen knows what they are waiting for.	— static	—
Notify me at launch button	Records interest and sends one notification when FR-04 ships. No other use of the signal.	USER interest record	On tap
What is coming 5 numbered points	Propose a project, community approval, pooled funding, progress tracking, public ledger — the intended mechanic, disclosed early.	— static	—
In the meantime 2 buttons	Routes to FR-02 and FR-03 so the screen is not a dead end.	— routing only	—
Build status 15 screens designed elsewhere	The full feature is designed — Community Projects Full Flow covers 15 screens from Projects List through Project Dashboard. Whether FR-04 keeps the coming-soon screen or routes into that module is a release decision, not a design gap.	—	Not scheduled

13 ELEMENTS DEFINED OVERLEAF

3 definition pages · what it means · where it comes from · when it updates

Transparency Report — every element

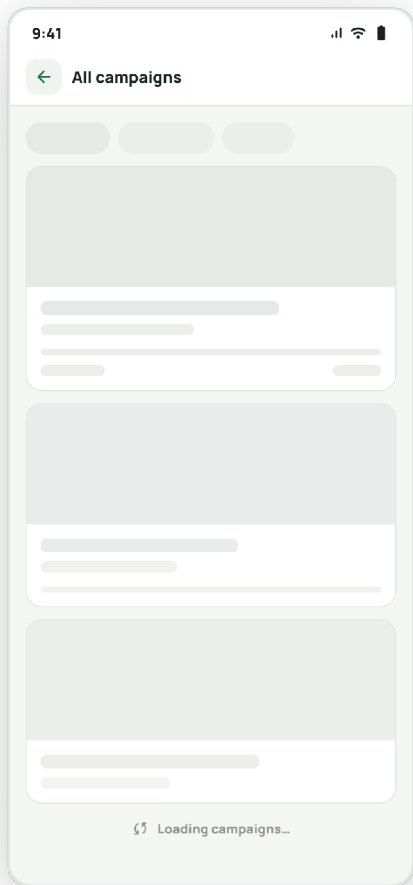

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Intro “Real funds. Real impact. 100% transparency.”	The claim the rest of the screen has to substantiate.	— static	—
Total raised ₹ 12,63,00,000 · +12.5% from last month	Every taka received across the platform, with month-on-month change. Platform-wide, not per campaign.	CALC sum of donations	Live
Total expenses ₹ 6,38,40,000 · +8.7%	Everything disbursed. Shown beside raised so the gap is visible without arithmetic.	CALC sum of expense entries	Live
Available balance ₹ 6,24,60,000 · +15.3%	Raised minus expenses — money held but not yet spent. The number most likely to be questioned, so it is shown rather than hidden.	CALC raised minus expenses	Live
Total donors 5,045,699 · +15.3%	Distinct donor accounts, not donations. A donor giving ten times counts once.	CALC distinct donor accounts	Live
Ledger tabs Transactions · Donations · Expenses	One ledger, three lenses. Transactions is everything in date order.	USER citizen selection	On tap

Transparency Report — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Date range May 01 – May 31	Defaults to the current month. Every KPI above re-computes when it changes.	USER citizen selection	On change
Transaction row direction · title · source · date · amount · running balance	Each line carries a running balance, so the ledger reconciles on screen rather than on trust.	CALC ledger entry	Live
Direction arrow green in · red out	Colour and arrow both encode direction, so it survives colour-blindness and print.	CALC entry type	Live
Type tag Donation · Expense	Classifies the line for filtering and for the Donations and Expenses tabs.	CALC entry type	Live
Receipt link per row	Opens FR-05.D with the underlying document. Every line has one — a line without a receipt is not published.	ADMIN uploaded receipt	On entry
Every taka is recorded assurance card	Restates the commitment at the foot of the ledger, with a route to support for challenges.	— static	—

Transparency Report – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Export header menu	Downloads the visible range as CSV or PDF for independent audit.	CALC ledger query	On tap

SCREEN 6 · STATE

13 ELEMENTS DEFINED OVERLEAF

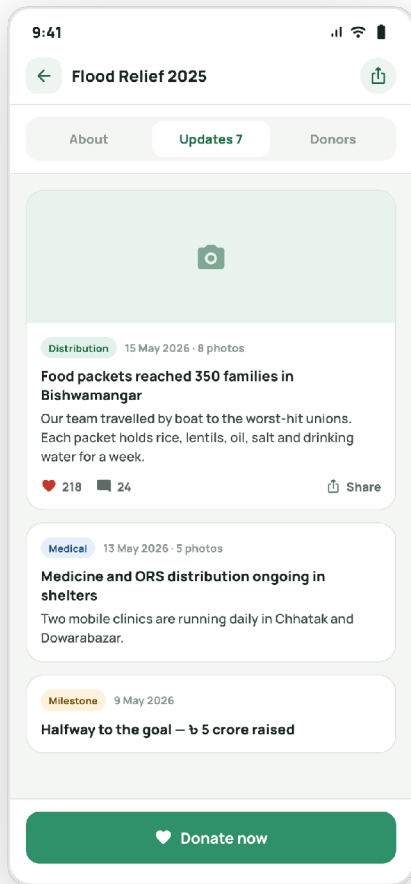

2 definition pages · what it means · where it comes from · when it updates

Campaign Details — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Cover image photo	Campaign hero, supplied by the organiser and checked at verification.	USER organiser upload	On approval
Category tag Flood · Medical ...	From the fixed taxonomy. Set at request time, changeable only by moderation.	ADMIN category taxonomy	On approval
Title Flood Relief 2025	The appeal in a few words. Organiser-written, moderation-checked.	USER campaign record	On approval
Raised of goal £ 5,20,00,000 of £ 10,00,00,000	Both numbers always shown together. Raised alone flatters; goal alone is meaningless.	CALC sum of donations vs goal	Live
Progress bar visual	Raised + goal, capped at 100%. Over-funded campaigns show the excess as a figure, not a longer bar.	CALC raised + goal	Live
Organiser Voice 360 Foundation	Who is accountable for the money. Verified organisers carry a badge.	ADMIN verified organiser record	On approval
Donor count 1,245 donors	Distinct donors, not donations — the count of people who agreed with the appeal.	CALC distinct donors	Live

Campaign Details – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Days left 15 days left	Time remaining. Under 7 days turns amber; at zero the campaign moves to FR-06.C.	CALC deadline minus today	Daily
Story long text	The organiser's case, with images. The only free-text field a citizen reads before giving.	USER campaign record	On approval
Tabs About · Updates · Donors	Three views of one campaign. Updates and Donors are FR-06.U and FR-06.D.	USER citizen selection	On tap
Donate now sticky button	Fixed to the bottom so it survives a long story scroll. Opens FR-07.1.	– routing only	–
Share icon	Global share sheet with a campaign deep link.	– existing share module	On tap
Report overflow menu	Flags the campaign to moderation. Available on every campaign, always.	USER report record	On submit

SCREEN 12 · CAMPAIGN

Campaign — Updates tab

FR-06.U

From · FR-06 · Updates

Goes to · —

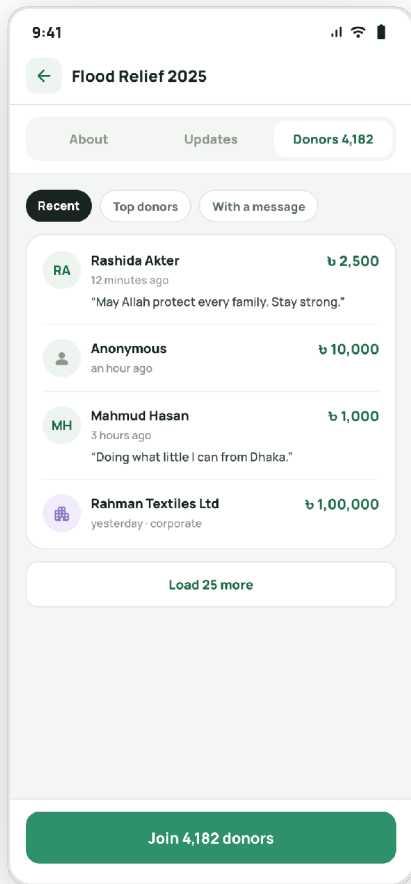

[Designed here](#)

4 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Campaign — Updates tab — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Update entry date · text · photos	Organiser posts showing what the money did. The strongest evidence a campaign is real.	USER organiser post	On publish
Spending note amount + purpose	Optional per update. When present it is reconciled into FR-05 as an expense line.	ADMIN expense entry	On entry
Empty state	A campaign with no updates says so plainly rather than hiding the tab — silence is information for a donor.	CALC update count	Live
Notification push	Publishing notifies everyone who donated to this campaign.	CALC fan-out to campaign donors	On publish

SCREEN 13 · CAMPAIGN

Campaign — Donors tab

FR-06.D

From · FR-06 · Donors

Goes to · —

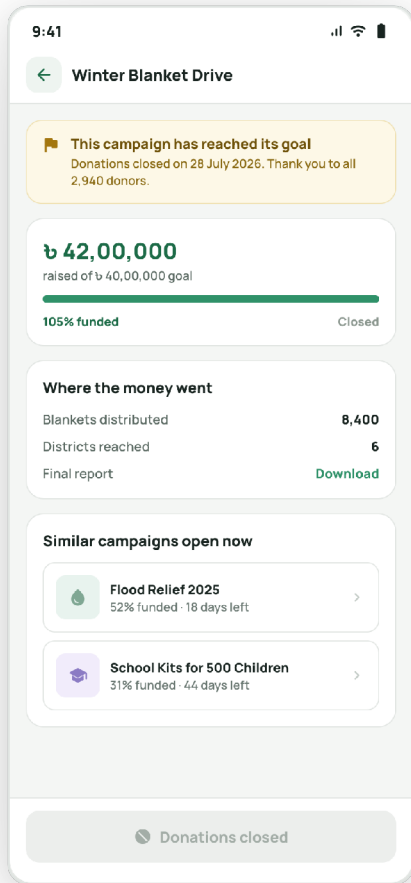

[Designed here](#)

4 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Campaign — Donors tab — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Donor row name · amount · time · message	Public record of who gave. Anonymous donors appear as Anonymous with the amount still shown.	USER donation record	Live
Anonymity toggle set at FR-07.2	The donor chooses; the amount is never hidden, because hiding amounts breaks the ledger.	USER donation record	On donation
Message optional text	Left by the donor at FR-07.2. Moderated before appearing.	USER donation record	On moderation
Top donors ranked	Optional ranked view. Off by default — competitive giving is not the default posture.	CALC donations by amount	Live

SCREEN 14 · STATE

Campaign closed

[Designed here](#)

9 ELEMENTS DEFINED OVERLEAF

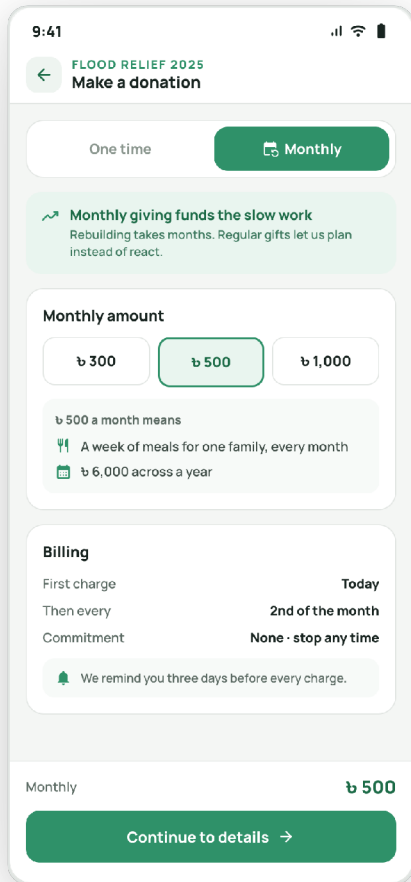

2 definition pages · what it means · where it comes from · when it updates

Choose Amount — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Campaign summary thumbnail · title · raised	The campaign stays visible through the whole flow, so the citizen never loses sight of what they are funding.	CALC campaign record	Live
Preset amounts ₳500 · 1,000 · 2,500 · 5,000	Tuned to Bangladeshi giving, not converted from another market. Middle option is visually emphasised.	ADMIN configured presets	On change
Custom amount field	Free entry above the minimum. Formats with thousands separators as typed.	USER citizen input	On keystroke
Minimum ₳ 50	Set by payment-provider economics, not policy. Below it, fees exceed the gift.	ADMIN platform setting	On change
One-off / monthly toggle	Switching to monthly changes the commitment entirely and opens FR-07.1M rather than continuing silently.	USER citizen selection	On tap
Cover the fees checkbox	Optional addition so the campaign receives the full amount. Off by default — never pre-ticked.	USER citizen selection	On tap
Fee line “₳ 32 processing”	The actual provider fee, shown before payment rather than discovered on the receipt.	EXT provider fee schedule	On change

Choose Amount – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Total ₺ 1,032	What will leave the citizen's account. Always the largest number on the screen.	CALC amount + fee if covered	Live
Continue button	Disabled until a valid amount exists. Opens FR-07.2.	CALC validation state	Live

what it means · where it comes from · when it updates

Payment Method – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Method list bKash · Nagad · Card · Bank	Wallets first, because that is how Bangladesh pays. Order is deliberate, not alphabetical.	EXT enabled providers	On config
Wallet number field	Validated against the provider's number format before submission.	USER citizen input	On blur
Saved methods list	Previously used methods, tokenised. The platform never stores raw card or wallet credentials.	EXT payment provider token	On save
Security note “Protected by top-level security”	Placed at the point of entry, where the concern is felt.	– static	–
Amount reminder ৳ 1,032	The total repeated immediately above the pay action – the last chance to notice a mistake.	CALC flow state	Live
Pay button	Submits to the provider and opens FR-07.5. Disabled once tapped, to prevent double charges.	EXT payment provider	On tap

[Designed here](#)

4 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Processing – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Spinner animated	Indeterminate on purpose – payment providers do not give reliable progress.	EXT provider request	While pending
Do not close warning	Explicit instruction, because closing mid-transaction is the main cause of orphaned payments.	– static	–
Back disabled	Navigation is suppressed for the duration so the transaction cannot be abandoned halfway.	CALC flow state	While pending
Timeout 30 seconds	After 30 seconds without a provider response the screen becomes FR-07.5T rather than spinning forever.	EXT provider timeout	On timeout

SCREEN 24 · STATE

Payment timed out

FR-07.5T

From · FR-07.5 · 30s

Goes to · FR-07.6 · FR-07.7

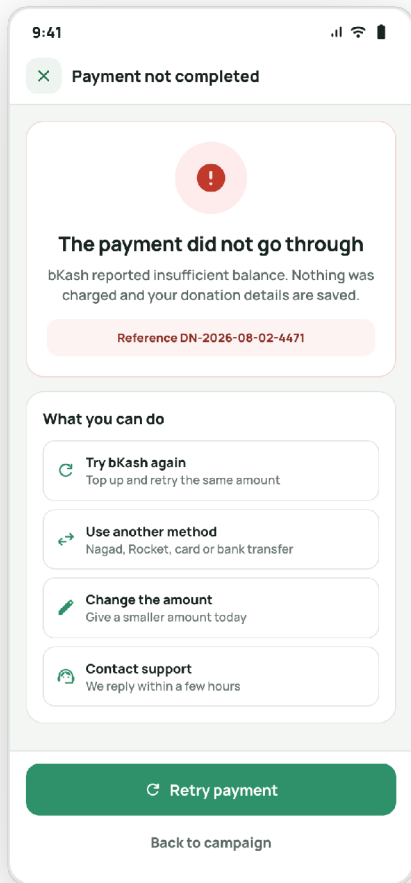

[Designed here](#)

4 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Payment timed out – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Message “This is taking longer than usual”	Honest about the delay without asserting failure – the payment may still succeed.	EXT provider timeout	On timeout
Do not retry warning	Tells the citizen not to pay again, which is exactly what they will otherwise do.	– static	–
Check status button	Polls the provider and resolves to FR-07.6 or FR-07.7.	EXT provider status API	On tap
Contact support link	Opens support with the transaction reference already attached.	– existing support module	On tap

SCREEN 25 · STATE

Payment Failed

FR-07.6

From · FR-07.5 · provider decline

Goes to · FR-07.3

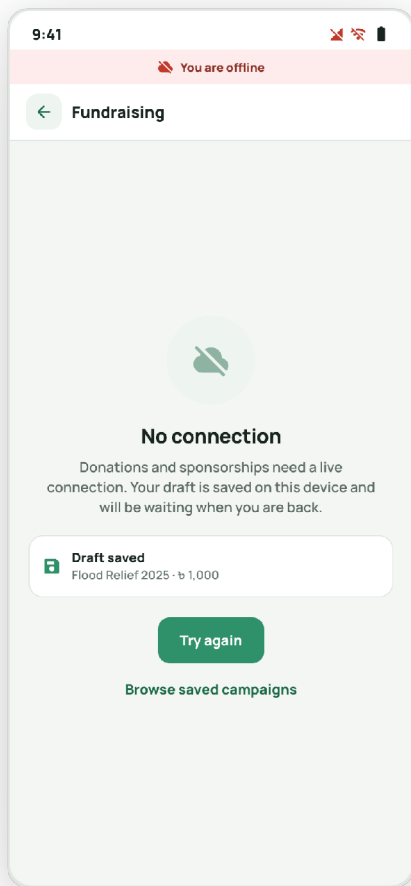

[Designed here](#)

5 ELEMENTS DEFINED OVERLEAF

what it means · where it comes from · when it updates

Payment Failed — every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Failure reason from provider	The provider's actual reason — insufficient balance, declined, cancelled — not a generic message.	EXT provider response	On failure
No charge reassurance	States that no money left the account, with the reference to verify it.	EXT provider response	On failure
Try again button	Returns to FR-07.3 with the amount and campaign preserved.	— routing only	—
Different method link	Routes to the method list, since the cause is often the method itself.	— routing only	—
Reference txn id	Quotable to support and to the provider.	EXT provider response	On failure

Monthly charge failed – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Charge failed banner	A monthly charge did not go through. Raised as a notification, not discovered by the sponsor.	EXT provider response	On failure
Which month “June charge failed”	Names the period, so partial years are auditable.	CALC mandate schedule	On failure
Reason from provider	Insufficient balance, expired card, mandate revoked – the provider’s actual reason.	EXT provider response	On failure
Retry window “We will retry in 3 days”	Automatic retry stated, so the sponsor does not double-pay.	ADMIN platform setting	On failure
Update payment button	Opens the method update; the mandate survives, only the instrument changes.	EXT payment provider	On tap
Beneficiary impact note	States plainly whether support has paused. The consequence is a person, and it is not hidden.	CALC sponsorship state	On failure

Withdrawal requested – every element

ELEMENT	WHAT IT MEANS	WHERE IT COMES FROM	UPDATES
Requested banner	Requested, not completed. The distinction is the whole control.	USER withdrawal record	On submit
Reference number	Quotable while it is in the queue.	CALC generated reference	On submit
Amount and destination summary	What was asked for and where it will go.	CALC withdrawal record	Live
Review step “Released by our finance team”	Names the human gate. Every withdrawal is reviewed.	ADMIN back-office release	On release
Public disclosure notice	States that the withdrawal will appear in FR-05 once released. No private movements.	CALC ledger entry	On release
Receipt deadline “Upload receipts within 30 days”	The obligation, restated at the moment it begins.	ADMIN platform setting	On submit

STILL OPEN

Decisions before build

Moderation console

Requests, campaign approval and withdrawal release all queue for a back office that has no screens. Nine screens in this deck depend on it.

Payment providers

The flow assumes bKash, Nagad, card and bank, and that all support recurring mandates. Which are live at launch is unsettled.

Web scope

Web covers FR-01 – FR-05 only. Donate, sponsor and request are mobile-only as scoped – confirm that is intended.

Community Projects

Designed – 15 screens exist in Community Projects Full Flow: Projects List, Details, Create Project, Upload Photos, Funding Progress, Volunteers, Updates, Expenses, Timeline, Community Support, Documents, Gallery, My Projects, Project Dashboard. FR-04 currently ships as a coming-soon screen – that is now a routing decision, not a design gap.
